I am a person who takes pride in my work and am used to working from detailed briefs or rough scribbles. I consider myself to work well under pressure and always try to deliver the best regardless of timings. I have styled and worked on many blue chip accounts including: Bacardi, BBC, British Gas, Carphone Warehouse, Informa, Land Rover, LG, Marks & Spencer, Virgin Atlantic, Virgin Media and many others.

I have worked with Macs for over 20 years and consider myself very fluent in all major design applications. I have extensive high-end knowledge of Photoshop, Illustrator and InDesign (CC). Due to my print background, the artwork files I produce are always set up with reproduction in mind.
